

## Interactive learning that explains, checks, and corrects itself — built for schools, programs, and families.

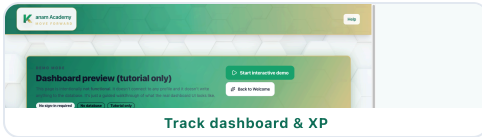

Six structured 8-week pathways. Real Python & SQL in the browser. XP, badges, and capstones — plus a guided demo anyone can try before they enroll.

### THE CHALLENGE

Students need credible pathways into **coding, AI, data, cybersecurity, money skills, and digital citizenship** — not unstructured screen time. Schools need programs that are **measurable and manageable**.

### THE ANSWER

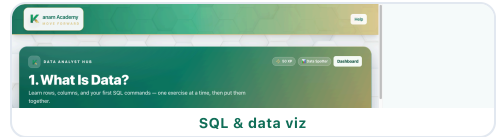

**Kanam Academy** delivers **92 interactive lessons** across six tracks with instant feedback, a visible roadmap, and **no software to install**.

Track dashboard & XP

Python + AI exercises

SQL & data viz

### Six programs · one platform

**AI Literacy**  
16 lessons · 8 weeks

Prompt responsibly, verify outputs, bias, privacy & academic integrity.

**Digital Literacy**  
16 lessons · 8 weeks

Search, communicate online, protect privacy, create ethically, career-ready skills.

**Cybersecurity**  
16 lessons · 8 weeks

Threats, passwords, networks, encryption → **defend-the-scenario** capstone.

**Financial Literacy**  
16 lessons · 8 weeks

Budgets, credit, saving, investing, scams → **first-year money plan**.

**AI + Python Starter Pack**  
14 lessons · 8 weeks

Variables → logic → loops → functions → **AI NPC** capstone.

**Data Analyst Track**  
14 lessons · 8 weeks

SQL, summaries, charts → **full data project** students can present.

### How every lesson works

1

**Learn it**

Short lesson module

2

**Do it**

Auto-graded practice

3

**Reflect**

Ethics + check-in

4

**Earn**

XP, badges & progress

**Led by industry professionals.** Every Kanam instructor brings years of real-world experience in technology, data, cybersecurity, and related fields — so students learn from people who have done the work, not just read about it.

### Why schools & partners choose Kanam

- ✓ **Industry instructors** — professionals with years of hands-on experience
- ✓ **Standards-aligned** — CSTA, ISTE, Common Core Math, Jump\$tart
- ✓ **Evidence of mastery** — auto-graded practice, capstones, progress reporting
- ✓ **Flexible delivery** — live cohort, hybrid, self-paced, homeschool
- ✓ **Pilot-ready** — guided interactive demo for families & decision-makers
